PROFILE INFO

Full-stack web developer building production web applications with PHP, Laravel and MySQL. I develop and maintain BanglaBazar 24/7, a live e-commerce platform, and have delivered a business website and a React portfolio project. I work across the stack — responsive interfaces, RESTful API design, database modelling and deployment — and I am extending my frontend work into React, Next.js and TypeScript.

SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, Bootstrap, Tailwind CSS, jQuery	**Backend**	PHP, Node.js, Express.js, RESTful API design
Frameworks	Laravel, React, Next.js	**Database**	MySQL, MongoDB
Tools	Git & GitHub, VS Code, cPanel, Figma,npm	**AI**	AI-assisted development, prompt engineering, AI image & video generation

LIVE PROJECTS

- **BanglaBazar 24/7** — online grocery & natural food store (Laravel, MySQL, Bootstrap)
  https://banglabazar247.store/
- **Special Motor Winding** — motor service business website
  https://specialmotorwinding.com/
- **Portfolio Website** — single-page portfolio built with React
  https://sharafatalam.netlify.app/
